

HOW TO APPLY BRUSH ON BLOCK® SUNSCREEN

Brush On Block® is housed in a self-dispensing brush. The powder flows through the brush and out the head of the brush.

When you receive the brush it will be in the "close" position. Remove the top cap and slide the plastic sleeve all the way down to uncover the brush head. Turn the bottom cartridge slightly (about 1/2") until you feel a click (don't keep turning it or you will unscrew the cartridge completely). Now the brush is in the "open" position and the powder should flow through the brush to the brush head.

Hold the brush in your hand and flick your wrist (like you would do with a glass thermometer) until you see the minerals in the brush head. Apply liberally to face, neck, chest and hands.

For smaller areas around the eyes and nose, slide the sleeve halfway up the brush for more precise application.

Turn the bottom of the container to the right back to the "close" position and replace cover when not in use.

CLEANING YOUR BRUSH

Your brush may be washed with brush cleaner, rubbing alcohol (preferred) or mild soap. We recommend that you clean your brush (maintenance cleanse) with rubbing alcohol regularly and wash the brush (deep clean) when it is time to attach a new refill.

To cleanse with rubbing alcohol (maintenance cleanse) - spray each side of brush with rubbing alcohol (2-4 sprays). With the brush in the closed position, spray 2 or 3 sprays of rubbing alcohol on a paper towel. Wipe the bristles in circles over the wet area of the paper towel, repeating as necessary until no more powder comes off. Gently tissue off residue and let air dry.

To clean with mild soap or shampoo (deep clean) -

1. Remove powder cartridge (hold the top of the brush with one hand and the bottom of the brush with the other; twist the bottom cartridge to the left until it unscrews; set aside).
2. Hold brush sideways under running water. Keeping the brush horizontal, apply a small amount of shampoo or gentle soap onto the brush and rub with your fingers. Rinse horizontally under running water
3. Squeeze the brush to remove excess water and allow to dry overnight on its side. Once thoroughly dry, screw bottom powder cartridge back on.

If your brush does not flow well after washing, locate the tube in the center of the bristles. Moisture may have made its way into this tube, causing clogging. To clear the clog, stick a straightened paper clip down this tube and move it around to touch all sides of the tube and dislodge any clogs.

FAQS: BRUSH ON BLOCK®

WHAT MAKES BRUSH ON BLOCK® A MINERAL SUNSCREEN?

Brush On Block® contains titanium dioxide and zinc oxide, both of which are well-known, naturally occurring minerals. Both minerals offer broad-spectrum, SPF 30 sunscreensing action when used as directed, and provide some of the safest sun protection available.

WHAT ARE THE INGREDIENTS IN BRUSH ON BLOCK®?

Brush On Block® contains the following ingredients:

Active Ingredients: Titanium Dioxide 15%, Zinc Oxide 12%

Inactive Ingredients: Alumina, Boron Nitride, Chamomile Flower Extract, Green Tea Extract, Honeysuckle Flower Extract, Iron Oxides, Jojoba Oil, Mica, Rice Lipids, Rice Starch, Safflower Oil, Silica, Stearic Acid, Triethoxycaprylylsilane

WHAT ARE THE BENEFITS OF THE BOTANICAL INGREDIENTS IN BRUSH ON BLOCK®?

Green Tea Leaf Extract is a natural antioxidant while Safflower Seed Oil is an emollient that moisturizes and protects the skin. Both Chamomile Extract and Honeysuckle help prevent skin inflammation and irritation. Together these botanicals work to enrich, soothe and replenish your exposed skin.

DOES BRUSH ON BLOCK® CONTAIN PARABENS, PABA OR PHTHALATES?

Brush On Block® does not contain any parabens, PABA or phthalates.

HAS BRUSH ON BLOCK® BEEN TESTED ON ANIMALS?

Brush On Block® is a cruelty-free company. We do not test our products on animals.

IS BRUSH ON BLOCK® SUITABLE FOR VEGANS?

Brush On Block® is vegan-friendly. Our brush is made of synthetic hairs and the mineral powder contains no animal by-products.

CAN I WEAR BRUSH ON BLOCK® UNDER MAKEUP?

Brush On Block® can be worn either under or over make-up or foundation. It is translucent and since it sits on top of the skin's surface, there is no risk of smudging, running or greasy residue.

IS BRUSH ON BLOCK® WATERPROOF?

Brush On Block® is both water and sweat resistant and retains SPF 30 protection after 80 minutes of water activity or sweating.

HOW OFTEN DO I NEED TO REAPPLY BRUSH ON BLOCK®?

Brush On Block® should be reapplied after 80 minutes of swimming or sweating, immediately after towel drying, or **at least every 2 hours**.

WILL BRUSH ON BLOCK® IRRITATE MY SKIN LIKE SUNSCREEN LOTIONS DO?

Since Brush On Block® is not absorbed into the skin and sits on top of the skin surface, it is less likely to cause skin irritation, break-outs, or clog pores. It is ideal for both acne-prone and sensitive skin.

IS BRUSH ON BLOCK® SAFE FOR CHILDREN?

Brush On Block® can safely be applied to children 6 months of age and older. As a matter of fact, many parents have found that Brush On Block® is easier to use on kids than many leading lotions, sprays or sticks. For children under 6 months, please check with your doctor.

HOW LONG SHOULD THE ORIGINAL MINERAL CARTRIDGE LAST?

The minerals in your Brush On Block® brush should last **approximately 2-3 months with average use**. If you are repeating applications due to swimming or sweating, you may use the product more quickly.

HOW DO I REFILL MY BRUSH?

Brush On Block® was designed to be refillable. To refill your brush simply remove the bottom cartridge by holding the top of the brush with one hand and the bottom of the brush with the other. Twist the bottom cartridge to the left until it unscrews and comes off. Remove the lid from the refill cartridge and screw the cartridge on to the bottom of the brush, twisting to the right.

NOTE: Minted sells refills! 😊

CAN I USE BRUSH ON BLOCK® ON MY BODY?

While Brush On Block® was designed to provide quick and easy sun protection for the face, neck, arms and hands, it can be used on all body parts that are exposed to the sun or that require fast and easy sun protection.

IS IT SAFE AROUND MY EYES?

While Brush On Block® should not be placed in the eyes, there is little risk of the product running or dripping into the eye area. To apply to smaller areas around the eyes and nose, slide the plastic brush sleeve halfway up for more precise application. Brush On Block® can be lightly dusted around the eye area and over closed lids.
